# LANDMARC: Consultation for Stakeholders in Asia

**O**n September 20, 2022, Stockholm Environment Institute (SEI) partnered with su-re.co and Centro Internacional de Agricultura Tropical (CIAT) conducted a stakeholder consultation for stakeholders in Asia.

This workshop is under the LANDMARC project, an EU-funded research project exploring the potential for CO<sub>2</sub> uptake from agriculture, forestry, and other land-use sectors. Our giftmaker shared the Indonesia Case Study, existing policies, biogas and compost project as well as the agroforestry projects that we work on as part of the LANDMARC project. We also organized discussions in Agriculture and Agroforestry to collect best practices and address Land-based Mitigation Technologies (LMTs). This is the first round of consultation; the second and third rounds will take place next year.

**Join our  
THINK –  
Research Team**

A full-time position for Researcher. Are you passionate about research and keen to further develop your skill? This opportunity is the one you're looking for!

su-re.co's THINK team works on creating well-thought gifts in the realm of climate change, renewable energy, and green business. Get the experience to work remotely in a multicultural environment and to work with international experts! Details information can be read on our website.

DO-TANK

# Biodigesters for Pak 'Made'

We expand our biogas installation to the area of mount Batur! Have you heard of Kintamani? It's 2 hours from Denpasar and you can find the largest lake in Bali, next to the mountant!

Last September, our giftmakers installed 2 biodigesters for farmers in Kintamani. These installations were the follow-up activity after Kintamani's first Climate Field School. One biodigester was installed for a vanilla farmer, Bapak Made Suarja. They have their own vanilla farm and have become our partners in producing climate-smart vanilla! The other biogas was installed at I Made Arsila's house. He was happy to have biogas in his house.

We look forward to installing more biogas in Kintamani in the future. Stay tuned!

“

This biogas is a very clever invention that turn waste into gas. I am always happy to try new things so I will take care of this biogas well. I hope this biogas can help other farmer communities.”

## Pak Made Suarja

*Vanilla Farmer in Kintamani*

“ I hope this biogas could help me economically, considering my low income.  
Ibu Odas, Farmer in Sindangpalay, Garut

DO-TANK

# Biogas Digesters in The Home of "Dodol"

2 Farmers in Sindangpalay  
village in Garut, West Java  
received gifts for the earth!

Two of our giftmakers traveled to Sindangpalay Village in Garut to install two biogas digesters for the farmers. Bianca and Indri dug the holes, glued the pipes and did some engineering work themselves with the help of the farmers! Women in STEM!

Bapak Ayut and Ibu Odas, coffee farmers in Garut, were overjoyed to receive the biogas digester. We hope that the biogas will help them reduce fertilizers, cooking gas, and firewood usage to save money.

We are willing to work together to ensure that more farmers have access to renewable energy.

Reach us by email [info@su-re.co](mailto:info@su-re.co).

DO-TANK

## Climate-Smart Vanilla: You Can Enjoy the Premium Taste in Japan

Did you know? Besides coffee and cacao, su-re.co also markets climate-smart dried vanilla beans to support Indonesian farmers with clean energy and climate field schools!

su-re.co collaborates with Balinese vanilla farmers, and we have just exported the second batch of Bourbon Planifolia dried vanilla. We also partner with Kaldi Coffee Farm, an organic shop in Japan that helps market our climate-smart vanilla and gives added value by using it as the ingredient of their cake cream. 10 kgs of Climate-smart vanilla have been exported to Japan on September.

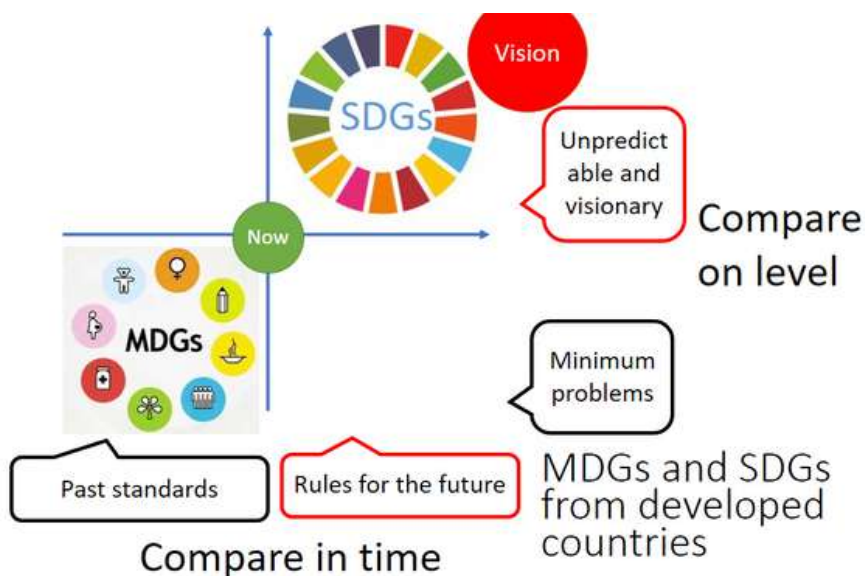

**YOU CAN ALSO ENJOY THIS ORGANIC GRADE-A VANILLA**

Visit our shop at <https://www.shop.su-re.co/gifts-we-make>

Once you take it home, you directly support Indonesian farmers to get better livelihoods and access to clean energy!

# High school students discussed about vision

As part of our be-tank activities, we share our knowledge based on our research, activities and experiences through training, workshop and webinars. We have been working with organizations, schools and even businesses to conduct Sustainable Development Goals (SDG) trainings.

Clack Memorial High School in Japan is one of the schools that has partnered with su-re.co in delivering SDG training in Japanese since September 2020. Our CEO, Dr Takama regularly gives series of presentations to the students.

Recently, the students and Dr Takama discussed about vision and its relation to SDG. It was not about memorizing all the 17 goals but to learn how to imagine the future by doing backcasting which is a basic concept of the SDGs.

A poster for an SEI Asia internship. The background is a blurred image of a green field with a path. The SEI Stockholm Environment Institute logo is in the top right. The text 'SEI Asia is looking for an intern' is followed by 'CLIMATE-RESILIENT TERRESTRIAL BIOECONOMY' in bold. Below this are five icons with text: a location pin for 'Location Bangkok', a calendar for 'Duration Jan-July 2023', a document for 'Type of Contract: Temporary', a folder for 'Documents Cover Letter, CV, Brief Writing Sample', and a megaphone for 'Deadline 5 November 2022'. A QR code with a 'b' logo is next to the 'APPLY NOW!' text. A teal button at the bottom contains the link 'bit.ly/SEIASIAINTERNSHIP'. A small photo credit 'photo by: Mika Bekar/istockphoto' is at the bottom right.

## BE-TANK

# OPPORTUNITY ALERT!

## Internship at SEI Asia

SEI Asia is looking for an intern on the topic of Climate-Resilient Terrestrial Bioeconomy. SEI Asia. The internship will concentrate on local, regional, and international issues of the terrestrial (land-based) bioeconomy (mostly in Southeast Asia). The problems concern examining various usage patterns and plans for biomass and/or land, as well as the governing structures that go along with them.

This could include stakeholder involvement and policy-oriented examination of nature-based solutions, bio-based resource systems, bioeconomy plans, and/or land-based climate mitigation.

If you are interested in applying, check out [bit.ly/SEIASIAINTERNSHIP](https://bit.ly/SEIASIAINTERNSHIP) for more details!

# Gifts We Make

Get a taste of our climate-smart products from Indonesian farmers using organic fertilizer and clean energy from our biogas

## Climate-Smart su-re.cocoa

Bright and fruity character of 65% dark chocolate from Tabanan - Bali with coffee beans inside

50 gr    25 gr

## Climate-Smart su-re.coffee Bajawa

A fully washed and medium roasted Arabica from Bajawa, Flores with sweet aromatics, fruity notes, and long chocolate finish

250 gr    50 gr

## Climate-Smart su-re.coffee Kintamani

An aromatic and sweet flavor coffee with the taste of combination between fruit and herb. Fully washed and medium roasted Arabica from Kintaman, Bali

250 gr    50 gr

WE ARE HIRING

# Be A Giftmaker

This position will assist in various do-business activities of su-re.coffee, su-re.cocoa and upcoming products. su-re.co offers a great opportunity to hone communication and design skills while developing green business in a real-world context with various organizations, communities, and government institutions. We are looking for a driven person with the ability to perform tasks independently.

## Green Business Developer

Full Time

## Researcher

Full Time

This position will support our current research projects (TIPPING+ and LANDMARC) such as writing papers, proposals, analyze data other relevant assistance, that is mainly focused on clean energy transition and land-use mitigation technology

# su-re.college Programme

The su-re.college programme by su-re.co offers students and recent graduates the opportunity to gain direct practical experience with think-do-be operations related to climate change and sustainability issues. This program allows you to get the experience both online and onsite. For those who want to learn and get exposed to real projects related climate change and sustainability issues.

## ➔ THINK-RESEARCH

su-re.co offers the opportunity to hone research thinking and skills while applying it to a real world context engaging with various stakeholders such as governmental bodies, research institutes and local communities.

## ➔ DO-BUSINESS

su-re.co offers a great opportunity to hone communication, business and design skills while developing green business to a real-world context with various organizations, communities, and government institutions.

## ➔ DO-ENGINEERING

Through this programme, su-re.co offers the opportunities for young generation to exercise their communication and management skills to solve energy-related issues in in poor and emerging economy context like Indonesia.

## ➔ BE-EVENT & TRAINING

su-re.co offers you the opportunity to apply your knowledge directly to our local and international partnership to community and improve transversal training and communication skills – communication, project management, public relations, etc.

### HOW TO APPLY?

#### VISIT OUR WEBSITE

<https://www.su-re.co/su-re-college>

#### PAY ATTENTION TO

Eligibility & requirement

#### FILL IN THE FORM AND UPLOAD THE REQUIRED DOCUMENTS

<https://www.su-re.co/su-re-college>

### NOTE

- Programme duration: 3-6 months
- Application will simply not be processed if there are missing documents and if instructions are not followed.
- Only shortlisted applicants will be contacted

SU-re.CO

Sustainability & Resilience

Established in 2015, su-re.co (Sustainability and Resilience) is an environmental Think-Do-Be-Tank based in Bali. Our vision is to be the giftmaker for the earth. To achieve this vision, we set a mission. We deliver well-thought outcomes because we need scientifically proven sustainable and resilient solutions. We work on think, do, be activities together.

Bali, 2022
